We were guessing 16-20k on the kayak rd. That was approved, but funding from what I understand was spent on another project???

So we need to find funding.

RE: Lynnville Park Gatehouse Estimate

Jerry Aigner Construction, Inc. is pleased to quote a price on the above referenced project. On this scope of work, we propose the following scope of work:

We will provide the required materials and labor to construct the gatehouse per our discussions and the revised exhibit attached for **$19,850**. Please note, due to the potential unknown on the underground electrical service, we have allowed $2,000 for all electrical work on the project. Should we encounter challenges, this number may adjust accordingly. If you wish to add an exterior door, it would be an add of $1,200. If you wish to add a window, it would be an add of $750.

Please contact us to discuss our bid should you have any questions.

Sincerely,

Please take a look at the drawings and estimate on the gatehouse for the park.

As you will note we changed from three doors to just one at the front of building, but got a price if it needs to be added back in.

Also note the dimensions of the structure is 10 x 12 building that includes the 4 foot deck. That means the interior of the building is close to 10 x 8.

What are each of your thoughts to how much to spend?

I was trying to keep this project under 20k, but of course I will proceed per the wishes of council.

Do we need to have a group look over? I can be available from now till 8:00 if necessary.
